

MR2349-978
Appln. No. 10/749,506
Reply to Office Action dated 3/30/2005

Remarks/Arguments

This case has been reviewed and analyzed in view of the Official Action dated 30 March 2005. In the Official Action, the Examiner has found two inventions, namely Group I directed to Claims 1-16 drawn to a pulse width modulation controller for modulating signal generated from a transformer; and Group II directed to Claims 17-20 drawn to a structure of a transformer arranged with a lamp terminal. The Examiner has required that Applicant chose Group I or Group II for further prosecution in this case.

By this Amendment and Response, Applicant has canceled Claims 17-20 and elects Claims 1-16 for further prosecution.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,
FOR: ROSENBERG, KLEIN & LEE
